

# Daily Point Goals

## UNDERSTANDING DAILY POINT GOALS:

Daily Point Goals, or DPG, are target goals set by a PBIS Rewards administrator. DPG helps staff and students to have a point range they're working to reach each day.

## SET GOALS FOR:

✓ **Classroom Staff**

✓ **Support Staff**

✓ **Students**

For staff, this is a point range to work toward awarding daily. Since various staff members are with different numbers of students each day, staff goals are broken into two categories:

**Classroom Staff** and **Support Staff**. This allows administrators to create a lower goal for Support Staff since they are seeing fewer students each day.

Similarly, DPG for students gives students a range to work toward earning each day. With explicitly taught expectations, students are aware and understand how they are able to earn PBIS Rewards points.

### Built-in Calculator

Average number of students per class:

Average number of classes per day:

% above and below the target number to determine the "Goal Zone":

**CALCULATE**

Select the "Need a Suggestion" button to get a recommendation for your point goals!

Using Daily Point Goals:

- 01** Set a User Type for each staff member:  
Classroom Staff *Teachers or Aides*  
Support Staff *Administrators or Counselors*  
Untracked *Cafeteria workers, Bus Drivers, etc.*
- 02** Create a Daily Point Goal for each User Type.
- 03** View "Point Reports" to track DPG achievement among staff.

## WHY A DPG IS IMPORTANT:

By setting daily point goals, you will be able to encourage consistency in the number of points staff members are awarding to students. Once the daily point goal is established, you can use the "Daily Points Goal" report to track staff usage. Staff members will be able to check their progress towards meeting their goal each day by selecting the "My Info" tab below their photo or by looking under the PBIS Rewards logo on the "Reward" page.
