

Redeeming: Students

Did you know there are lots of ways to use the points you earn in PBIS Rewards? Check out the system features below to see what your school is offering or may offer in the future. These features can be viewed on the Student App or by logging onto the Web Portal.

STORE

Your school may have a store for everyone to use. There may also be teachers in your school who have their own stores. Some teacher stores may only be available to the students in their class. Other teachers may choose to make their store available to everyone.

EVENTS

Events are another fun way to use points. Events can be run schoolwide or by an individual teacher. Events use points three different ways:

Redeem

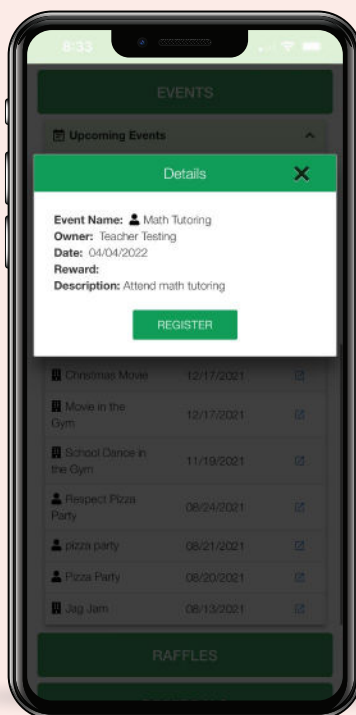

Spend points to attend

Qualify

Attend based on points earned

Reward

Earn points for attending

RAFFLES

Like Stores and Events, Raffles can also be schoolwide or run by an individual teacher. This is an exciting way to spend your points for chances to win fun prizes or privileges. Your teacher and/or school will set each raffle entry to a set amount of point and you will be able to purchase entries from the app or computer.
